

## Asbestos Management

INDUSTRIAL HYGIENE

**T**he EI Group Inc. (EI) provides comprehensive turn-key asbestos consulting services. Through a multi-phase approach of inspection, in-place management and abatement oversight, EI provides clients with practical and cost-effective solutions for the management of asbestos hazards.

EI has performed thousands of asbestos building surveys at commercial, residential and industrial facilities. We assist clients in determining the most practical approach to manage asbestos-containing materials.

In addition to EI's proud history of providing hazardous building material consulting services, EI is one of the nation's premier training providers for asbestos accreditation courses, providing certification training to thousands of assessment, remediation and abatement contractors. Our courses are taught by subject matter experts to ensure the highest standards of quality are met.

EI's asbestos management services:

- » AHERA and NESHAP Inspections
- » Management Planning
- » Abatement Design
- » Operations and Maintenance (O&M) Plan Development
- » Third Party Air Sampling and Analysis
- » Turn-Key Project Management
- » Comprehensive Training Solutions
